- Heater in pump compartment
- Battery charger + 120V Power outlet
- Automatic dump discharge system
- (3) Flares
- Road triangles
- Extinguisher

LETTERING :

- 3M Reflective lettering (Fire department lettering)
- Rear back chevron
- Rear bumper with chevron

Aluminum vs Poly (lifetime warranty) is:

- 2.98 times more dense (g/cm²)
- 62.72 times more elastic (GPA)
- 3.92 times more resistant to high temperature (° C)

- 20.83 times more rigid versus its weight (MN·m/kg)
- 2.12 times more strong versus its weight (kN·m/kg)
- 20.0 less fragile times at -40 ° F and +.
- 1.55 times faster unloading.
- 9.75 times more resistant to pressure from loading
- 6.30 times more elastic (MPa)
- Much safer thanks to its centre of gravity very low more easy maintenance.
- Much easier to repair and maintain.
- Tensile strength of polypropylene is 4,500 psi
- Tensile strength of aluminium is 44,000 psi

Brindlee Mountain Fire Apparatus is one of the world's largest used fire truck sales and service companies. Based just outside of Huntsville, Alabama, the company has forty-five full-time personnel occupying over 12,000 square feet. Our mechanics, all of whom are EVT certified, perform pump tests, general repairs, preventative maintenance, and body, collision, and paint work on over 500 used fire trucks every year.
