- You won't find a nicer more complete truck on the west coast.
Truck has a 1,500 gal a minute pump feed by a non rusting poly tank. A video of the top mounted water cannon in action is available. Totally amazing. It will shoot hundreds of feet while you aim and shoot the flames from inside the truck.
Drives like new as it should with low miles. Starts every time in one second.
Title is only around \$90.00 per year because of low use plates. Very low cost of ownership.
The worst of the fire season is still ahead. Get prepared now.

Brindlee Mountain Fire Apparatus is one of the world's largest used fire truck sales and service companies. Based just outside of Huntsville, Alabama, the company has forty-five full-time personnel occupying over 12,000 square feet. Our mechanics, all of whom are EVT certified, perform pump tests, general repairs, preventative maintenance, and body, collision, and paint work on over 500 used fire trucks every year.
