○

Live Burn / Sprinkler Demo room with onboard water tank
Weather smart system that simulates Tornado or Hurricanes and teaches you how to be prepared in the home. This includes shaking blinds, strobe lights, and sound woofers.
Working kitchen that is also a fire safety teaching area to go over kitchen safety (Fridge, Microwave, Sink)
Working fire alarm systems (pull stations, smoke alarms, CO alarms, and strobe alarm for the deaf)
Blinking 9-1-1 porch light
ADA ramps for full accessibility
Live 9-1-1 phone system so kids can practice making 911 calls
Control room that has CCTV cameras of the unit
Remote smoke system
Heated bedroom door to teach you how to feel a door for heat
Rear exit window with ladder
Rear room converts to a command desk area so the trailer could be used as a command post
Full AC, Heaters and Ventilation System
Large awnings off both sides
Outside DVD - TV for exterior class room presentations. This TV also doubles as it hooks into the CCTV system so parents can watch the class or their children from the outside of the trailer while they are participating.
Wireless PA System
Exterior scene lighting
On board water and gray tanks
Exterior appearance package with aluminum wheels and high-quality siding.
Electric jacks
Ground lighting
We have all manuals and warranty paperwork, title in hand.
We also paid for the copyright usage when the graphics were done to use Smokey the Bear on the outside of the trailer.

Only defects to the trailer that we are aware of is:
Rear AC is currently not working (needs serviced)
Small soft spot in the front corner of the floor in the burn room.
Batteries need replaced for the light jacks (2 small car batteries, but currently OK using the hand crank over-ride.

just outside of Huntsville, Alabama, the company has forty-five full-time personnel occupying over 12,000 square feet. Our mechanics, all of whom are EVT certified, perform pump tests, general repairs, preventative maintenance, and body, collision, and paint work on over 500 used fire trucks every year.
