Statement from seller:

All detailed maintenance records and operation manuals are available, including the original purchase order for the truck in 1971. Owned by one department until purchased in 2011 and garage kept its entire life.

Interior: Enclosed cab in 2000 to make total room for 7 (3 SCBA Seats); Black vinyl interior with minimal wear and tear due to recent refurbish.

Exterior: Rig painted in 2000 so in great condition with minor dings and scratches. No noteworthy rust. Tires are in good to fair condition. All warning lights function and compartments are lighted. Electronic siren and air horn also operational.

History: The apparatus was refurbished by Pierce Manufacturing in 1986 that included a new hose body. In 2000, RPI enclosed the cab and added rear doors, jump seats, upgraded to maxi brakes, and replaced the booster tank with a 500 gallon poly tank. New battery installed in 2012. Hose bed cover included.

Additional equipment not included with purchase.

Length: 29' 7"  
Height: 9' 3"  
Wheelbase: 160"

Brindlee Mountain Fire Apparatus is one of the world's largest used fire truck sales and service companies. Based just outside of Huntsville, Alabama, the company has forty-five full-time personnel occupying over 12,000 square feet. Our mechanics, all of whom are EVT certified, perform pump tests, general repairs, preventative maintenance, and body, collision, and paint work on over 500 used fire trucks every year.
