1987 Grapple Bucket

- 1987 Grapple Bucket
- Additional equipment not included with purchase unless otherwise listed. Mileage readings may not be real-time and should be confirmed.
- This is a custom designed and manufactured fire fighting grapple bucket intended to be used on a two cable crane. This clamshell design will lift bulk and loose materials such as bails of hay, firewood, or burning tires. It was built with the intention of removing burning hay from a second story of large barns and saving the lower stories of the structure. With some modification, this bucket could be retro-fitted to work on a large excavator as well. To be sold with custom built trailer.

Brindlee Mountain Fire Apparatus is one of the world's largest used fire truck sales and service companies. Based just outside of Huntsville, Alabama, the company has forty-five full-time personnel occupying over 12,000 square feet. Our mechanics, all of whom are EVT certified, perform pump tests, general repairs, preventative maintenance, and body, collision, and paint work on over 500 used fire trucks every year.
